Operating System	Compaq Tru64 UNIX, DEC OpenVMS, Microsoft Windows 2000, Microsoft Windows NT, Novell NetWare
Technical Features	
Compressed Capacity	80 GB
Data Transfer Rate	6 GB
Data Transfer Rate - Compressed	12 GB
Platform	PC, Unix

More Information

The 40/80 GB DLT Tape Drive is used in backup solutions for mid to high-end servers as a stand-alone product. The DLT technology is positioned at the high end of the Compaq secondary storage portfolio of drives. The 40/80 GB DLT drive is part of a total Compaq solution using Compaq branded servers, primary storage and media. Live trial software for backup applications is included in the drive option kit.
